

AGENDA

DAY 1

Time	Session		
9:00am	Registration		
9:40am	Welcome Activity Starts		
Empowering the Guidewire Development Community to Innovate and Grow			
10:00am – 11:30am	<p>► Speakers: Mohammed Anzy S, Diego Devalle, Jonathan Michael, and Lakshmi Ramachandran, Guidewire</p> <p>Don't miss this exhilarating mainstage keynote that kicks off the two-day DEVSummit. With a focus on growth and empowerment within the global community of Guidewire developers, and a highlight of our investment in the developer community in India, this keynote will ignite your passion for innovation and leadership in the P&C industry. Discover how you can drive innovation, and how Guidewire is paving the way for the future of development. Learn about Guidewire's vision and experience why community involvement is paramount for your success, both personally and professionally. Prepare to be energized, inspired, and empowered to shape the future of P&C insurance.</p>		
11:30am – 1:00pm	Lunch & Networking		
	Breakout Room 1	Breakout Room 2	Education Track
1:00pm – 2:30pm	<p>Advancing Your Development Experience on Guidewire Cloud Platform</p> <p>► Speaker: Cuong Pham and Anil Kahale, Guidewire</p> <p>Join us for a 90-minute technical exploration of developing on the Guidewire Cloud Platform. From understanding the platform's technical architecture to navigating real-world use cases with tools like BitBucket and TeamCity, this session offers a comprehensive deep dive into the developer experience. Dive into the CI/CD pipeline and gain insights into what life looks like for developers on the Guidewire Cloud Platform.</p>	<p>Revolutionize P&C Operations with Autopilot Workflow Service</p> <p>► Speaker: Uday Mulinti, Guidewire</p> <p>Join us for a 90-minute technical exploration of Autopilot Workflow Service, poised to reshape P&C insurance operations. Delve into how this new Core Service on Guidewire Cloud Platform empowers developers, business analysts, and operational teams to streamline and automate business processes across the insurance lifecycle. Through demos of real-world use cases, you'll gain a comprehensive understanding of how Autopilot Workflow Service works today to drive efficiency, productivity, and collaboration. We'll also cover how new workflow templates can be built for your internal organization or even for the Guidewire Marketplace in order to repurpose existing processes and scale faster.</p>	<p>Cloud Credential Course: REST API Client*</p> <p>► Speaker: Scott McReynolds, Guidewire</p> <p>Many modern applications utilize REST APIs for integration to achieve fast performance, high reliability, and scalability. Guidewire developed a new REST API Client framework for developers to easily generate API client code to consume third-party REST APIs that are necessary for successful integrations. Learn to use an external PetStore API as an example to show you how to generate, package and deploy the API client code in InsuranceSuite applications.</p> <p>*This class is limited to 50 participants.</p> <p>**Participants who complete this Cloud Credential Course will receive a 12,500 INR (\$150 USD) voucher for one free attempt to take a proctored exam and earn your certification. It is available for use for up to one month after the DEVSummit ends.</p>
2:30pm – 4:00pm	<p>Successfully Leveraging Data on Guidewire Cloud Platform</p> <p>► Speakers: Raman CV, Satheesh Sudhakaran, and Tanmoy Ghosh, Guidewire</p> <p>Delve into the components of our comprehensive suite of data tools on Guidewire Cloud Platform in this 90-minute technical session. Explore the component pieces including Cloud Data Access (including self-service provisioning), Explore and Data Studio as we embark on a deep dive into the world of data integration and usage within the insurance ecosystem. Through real-world use cases and hands-on demonstrations, gain a thorough understanding of how to implement and apply these various components for successful data integration and utilization to deliver positive business outcomes for P&C insurers. Whether you're a seasoned developer or new to the field, this session will equip you with the knowledge and tools needed to harness the full potential of data on Guidewire Cloud Platform.</p>	<p>Unleash Integration Power with Guidewire Integration Framework</p> <p>► Speaker: Rick Jones, Guidewire</p> <p>Join us for a 90-minute technical exploration of the powerful capabilities of the Guidewire Integration Framework. Comprising the Cloud API, Integration Gateway, and App Events, this session will provide developers with a thorough understanding of how to harness the full potential of integration throughout the Guidewire ecosystem. Delve deeply into message handling, data synchronization, and event-driven architecture to streamline workflows and enhance system interoperability. Learn how to integrate external systems smoothly, optimize data exchange, and leverage real-time event processing to drive innovation and efficiency in your projects.</p>	<p>Cloud Credential Course (Continued): REST API</p>
4:00pm – 4:30pm	Break: Tea Time		
4:30pm – 5:30pm	<p>Panel Discussion: Voices from Our Developer Community</p> <p>► Moderator: Tirath Desai, PwC</p> <p>► Panelists: Sreenivas Gouraram, CNA Insurance; Priya Jayachandran, CGI; Hafiz Karim PM, EY; Ankita Ranjan, CogniSure</p> <p>Join us for a dynamic and engaging panel discussion with live Q&A session featuring developers from Guidewire SI partner organizations and Guidewire insurance customers. Gain invaluable insights into the world of Guidewire products as our panelists share their career experiences, advice, and trends they see in their roles. From professional development to industry growth, this session offers a unique opportunity to hear firsthand from your peers about navigating the world of development in the P&C industry and how you can grow.</p>		
5:30pm – 6:00pm	<p>Guidewire DEVHack Finalists</p> <p>► Speakers: Jonathan Michael and Karolina Kuczko, Guidewire</p> <p>Our 5 DEVHack finalists will be announced and audience voting will begin to determine the winning teams.</p>		
6:00pm	<p>Evening Reception</p> <p>Executive remarks: Jeff Cooper and Diego Devalle, Guidewire</p>		

AGENDA

DAY 2

Time	Session		
9:30am – 9:45am	Welcome to Day 2 ▶ Emcee: Jonathan Michael, Guidewire		
	Mainstage	Education Track	
9:45am – 10:15am	Expand Your Horizons by Developing Content for Guidewire Marketplace ▶ Speaker: Will Murphy, Guidewire Join us for a dynamic 30-minute session that will explore the exciting opportunity of developing content for Guidewire Marketplace. Discover how your expertise can be harnessed to create innovative solutions that expand the marketplace and benefit both your organization and the wider Guidewire community. Gain insights into the process of developing ready-for-market solutions and learn how to leverage this platform to enhance your credibility and unlock new opportunities for growth.	Cloud Credential Course: App Events* ▶ Speaker: Scott McReynolds, Guidewire Are you writing, testing, and maintaining several lines of custom Gosu code to develop event-driven integrations from InsuranceSuite to external systems? App Events provides a codeless framework to build downstream integrations. Learn exactly why, when, and how you can use App Events to build integrations faster and better.	
10:15am – 10:45am	A Developer's Journey to the Cloud ▶ Speaker: Anil Kahale, Guidewire Join us for a 30-minute session that offers an overview of the developer experience of migrating to Guidewire Cloud Platform. Addressing technical questions and considerations, this session will inspire audience members to envision the transformative potential of developing on Guidewire Cloud Platform. Learn about the benefits, challenges, and best practices associated with cloud migration, and discover how embracing the Guidewire Cloud Platform can unlock new opportunities for innovation and growth in your development projects.	*This class is limited to 50 participants. **Participants who complete this Cloud Credential Course will receive a 12,500 INR (\$150 USD) voucher for one free attempt to take a proctored exam and earn your certification. It is available for use for up to one month after the DEVSummit ends.	
10:45am – 11:15am	Developing User Experiences with Jutro Digital Platform ▶ Speaker: Pablo Bermejo, Guidewire Join us for a 30-minute overview session to fully understand the Jutro Digital Platform's capabilities. This session will empower you to leverage Guidewire's frontend development tools and technologies to drive digital transformation at your moment of inspiration. Learn about the Jutro Digital Platform's key features, benefits, and use cases and discover how it can accelerate development cycles, enhance customer engagement, and unlock unprecedented opportunities for innovation in the insurance industry.		
11:15pm – 12:30pm	Lunch & Networking		
	Breakout Room 1	Breakout Room 2	Education Track
12:30pm – 2:00pm	Jutro Digital Platform Deep Dive: Craft, Share, and Scale ▶ Speaker: Toby Eisentraeger, Guidewire Dive deep into the mechanics of the Jutro Digital Platform with this immersive 90-minute technical session tailored for developers. Explore multiple use cases and unlock the full potential of the platform as you delve into developing brand new digital experiences, creating micro frontend experiences that can be embedded in existing Engage products, and crafting digital experience templates for internal use or potential deployment on the Guidewire Marketplace. Through hands-on demonstrations and expert guidance, gain the skills and insights needed to leverage the power of Jutro and drive digital innovation in the insurance industry.	Embracing AI/ML in Insurance: Opportunities and Mechanisms for Change ▶ Speakers: Renato Quintao, Kamlesh Bhatia, and Tushar Agarwal, Amazon Web Services Recent AI/ML advancements have the potential to transform insurers into data-driven organizations and enable them to enhance customer acquisition and retention, improve risk assessment, prevent fraud, reduce costs, personalize offerings, and streamline processes. AWS has helped 100,000+ customers innovate using AI and ML, not only by providing a broad and deep portfolio of technology but also by advancing a culture of innovation that supports rapid innovation at scale. Don't miss this opportunity to hear about the latest AI/ML offerings from AWS and how they can accelerate your customers' transition to Guidewire Cloud.	Cloud Credential Course (Continued): App Events
2:00pm – 3:30pm	Mastering Product Development with Advanced Product Designer ▶ Speaker: Anil Kahale, Guidewire Dive deep into the realm of product development with a comprehensive 90-minute session focused on leveraging the Advanced Product Designer App on Guidewire Cloud Platform. Explore advanced techniques and strategies to optimize your development process and unlock the full potential of your products. Through real-world examples and expert guidance, gain a deeper understanding of product development principles and harness the power of Guidewire's cutting-edge tools. This session is tailored for developers seeking to enhance their skills and drive innovation in product development.	Elevating Quality with Guidewire Testing Framework ▶ Speaker: Uday Mulinti, Guidewire Embark on a 90-minute technical journey into the heart of quality assurance with a deep dive into the Guidewire Testing Framework on the Guidewire Cloud Platform. This session will delve into the intricacies of test automation and behavior-driven development, empowering developers to elevate the quality of their products. Explore our latest capability: "Add-Your-Own Testing and Quality Gates (EA)", designed to seamlessly integrate third-party testing frameworks into the Guidewire CI/CD pipeline, enhance transparency, developer experience, and efficiency in identifying and resolving issues. Don't miss this opportunity to master the art of quality assurance with Guidewire's cutting-edge tools.	Cloud Credential Course (Continued): App Events
3:30pm – 4:00pm	Break: Tea Time		
4:00pm – 4:30pm	Presentation of DEVHack Winners and Closing Remarks ▶ Education Recognition presentation: Scott McReynolds, Guidewire ▶ DEVHack Winners presentation: Renato Quintao, Karolina Kuczko, Axel Kirstetter, and Jonathan Michael, Guidewire		
4:30pm	Guidewire DEVSummit 2024 Ends
